This is the existing syllabus.

Points to note on the proposal for the revised syllabus.

Meetings are in blue and take place every 2 weeks. Any business will be conducted at the meeting and on most nights there's a speaker. Ian Samson has a list of speakers for members who don't have one ready.

Council meetings take place each month allowing time for minutes to be written before the next meeting. This will result in a quicker turn round for funding requests and the like.

That's a significant increase in the number of meetings.

Partner's nights are inbetween the regular meetings.

Please remember this syllabus is a proposal and can be adjusted or amended. A vote will be taken on 6th December to see if the trial continues but members now have a much better idea of what they are voting for.
